

BRIDGING THE DIGITAL DIVIDE – COMPUTER OWNERSHIP

The Department of Education and Training seeks to provide students with equal access to technology to help students thrive and prosper. This means that students can permanently retain computers loaned to them during remote and flexible learning.

This form records the terms on which students can now permanently retain the computer loaned to them by Western Port Secondary College.

To complete this process, the Department requires the student's parent or carer to accept the ownership of the computer on the terms and conditions set out below. There is no obligation for the parent/carers to accept the transfer of ownership. Should you decline, the computer loaned to the student must be returned to the school as soon as practically possible.

The below information is required to be completed, in full, and returned to school as soon as possible in Term 1, 2021.
